

Adhika Adhiwijna

Frontend Engineer

Profile

Experienced Software Engineer specialized in front-end development | 2+ years | Driving Excellence Through Continuous Learning

Employment History

Software Engineer - Frontend at Global Urban Esensial (Dexa Group), South Tangerang

December 2022 — Present

- Collaborated seamlessly within an Agile team encompassing back-end developers, QA professionals, UI/UX designers, and the product owner to ensure the seamless operation of applications.
- Debugged software, identified root causes, and proposed solutions to software issues.
- Engineered a tailored logging framework that effectively captures and archives critical system data, proving instrumental not only for real-time debugging but also for generating valuable insights.

Tech Stack: ReactJS, NextJS, Flutter, Bootstrap

Software Developer at Fiture Teknologi Inovasi, Jakarta

August 2021 — December 2023

- Delivered three applications for clients and was responsible for full-stack development, including back-end services and front-end interface.
- Reduced app loading time by 20% through the optimization of code and images.
- Leveraged APIs and web services to create a seamless user experience.

Tech Stack: React Native, ReactJS, Flutter, Laravel, NodeJS, Bootstrap

Junior Front-end Developer at Nawadata Solutions, South Tangerang

March 2021 — July 2023

- Translated UI/UX design wire frames into functional and efficient code using ReactJS and MaterialUI.
- Developed my team-work skills by working in close collaboration with 3 other developers.

Tech Stack: ReactJS and Material UI

Education

Bachelor, Institut Teknologi Bandung, Bandung

2014 — 2019
